

## Maidenraig Flood Management & Wetland Information Session

Hazlehead Academy - 18/01/18

### Comments received:

#### **This will be great for:**

- Wildlife and habitats
- It will rejuvenate the area
- Involve and engage users
- Like to see more schemes in Aberdeen, spread the capacity

#### **There were concerns about:**

- Vandalism, litter and trail bikes
- Houses flooding
- Disturbance due to works (habitat)
- Become busier and less peaceful, bring anti-social behaviour

### Questions:

Will this reduce flooding at Stronsay?

Can we have some bins / benches?

Will low level lighting be installed?

Is there any potential to extend the path to the East?
