

Thank you so much for attending The Rivers Trust Autumn Conference!

There were over 100 delegates and we were at full capacity. It was fantastic to see so many people attending the day to discuss Natural Flood Risk Management and how we can help build flood resilient communities and support catchment partnerships in implementing natural flood risk management projects.

As many of you may have noticed, we had a camera crew attending the day to capture the essence of the day. Take a look at the video [here](#) :
