

Zeeland as a (self) conscious (tourist) destination

The province of Zeeland wants to develop towards a(n) (even more) conscious and valuable (tourism) destination, balanced between visitor, resident, entrepreneur and environment. Mobility (translated into travel behavior) plays an important role in this. Through this questionnaire, developed by the University of Ghent and in close consultation with the HZ University of Applied Sciences, options are being sought to improve the existing range of transportation in the region. Earlier this year you gave permission to track your travel behavior (anonymously) via the tracking software as a part of the Zeelandapp. When leaving your e-mail address you also indicated that we could approach you for additional questions. That is why you now receive this message.

Your participation in this questionnaire is completely voluntary and takes approximately **10 minutes** of your time. All your answers are completely anonymous. You can track your progress via the gray bar at the top of the page. For questions and comments, please contact h.ijben@hz.nl (Harm IJben, project manager HZ University of Applied Sciences / Coastal Tourism Knowledge Center).

Thanks in advance for your time and effort!

This research is part of the European Interreg project called 'MOVE' or 'Mobility Opportunities Valuable to Everybody' (<https://northsearegion.eu/move/about/> (<https://northsearegion.eu/move/about/>)).

There are 59 questions in this survey.

Buurtbus (Connexxion): a local system from Zeeland of 18 smaller buses that run under the responsibility of the local neighborhood bus associations and are run by volunteers. These neighborhood buses only run on weekdays.

Haltetaxi: a local system from Zeeland that offers taxi transport from bus stop to bus stop. The Haltetaxi runs on routes or times where the fixed bus does not run and is in line with the regular bus timetable. The Haltetaxi does not run according to a timetable and must therefore be booked in advance.

Zonnetrein: a local shuttle service from Zeeland that connects the public transport in Breskens with the center of Vlissingen.

Bike sharing initiatives: a system that enables people to rent locally available bicycles at any time (according to availability) and (usually) for a limited period of time. The bicycle is put back at an agreed location for the next user.

Connexxion intends to test a new mobility solution in the province of Zeeland: the "OVflex" (following the example of similar Connexxion concepts in other regions in the Netherlands) . This would be a bus service that you as a traveler can book at least 30 minutes in advance via a (web) application or by telephone. Afterwards, a bus will pick you up at an agreed time and pick-up location (an existing bus stop). It is possible that other passengers are picked up on the way. Each bus will be wheelchair accessible.

Would you be interested in using this service, and for which trips?

Buurtbus (Connexxion): a local system from Zeeland of 18 smaller buses that run under the responsibility of the local neighborhood bus associations and are run by volunteers. These neighborhood buses only run on weekdays.

Haltetaxi: a local system from Zeeland that offers taxi transport from bus stop to bus stop. The Haltetaxi runs on routes or times where the fixed bus does not run and is in line with the regular bus timetable. The Haltetaxi does not run according to a timetable and must therefore be booked in advance.

Zonnetrein: a local shuttle service from Zeeland that connects the public transport in Breskens with the center of Vlissingen.

Bike sharing initiatives: a system that enables people to rent locally available bicycles at any time (according to availability) and (usually) for a limited period of time. The bicycle is put back at an agreed location for the next user.

Car sharing initiatives: a system that enables people to rent locally available cars at any time (according to availability) and for any length of time. The car is put back at an agreed location for the next user.

Ride sharing initiatives: a system that enables people to order and pay for a trip through a private application with a private operator. In this way you can ride with someone for a certain ride, so that the costs are shared among the passengers.

Connexxion intends to test a new mobility solution in the province of Zeeland: the "OVflex" (following the example of similar Connexxion concepts in other regions in the Netherlands) . This would be a bus service that you as a traveler can book at least 30 minutes in advance via a (web) application or by telephone. Afterwards, a bus will pick you up at an agreed time and pick-up location (an existing bus stop). It is possible that other passengers are picked up on the way. Each bus will be wheelchair accessible.

Would you be interested in using this service, and for which trips?

For some time now, we as a knowledge center (HZ University of Applied Science) have been gathering information about the mobility behavior of visitors in Zeeland. We were able to do this by tracking people with the VVV Zeeland app during their visit to the region, with their permission. Following is one thing, but can you imagine that as a knowledge center we can also give something back to you as a visitor? Through an app we want to give you insight into your own mobility behavior in Zeeland. With this we want to create awareness and ensure that you as a visitor to Zeeland will move even more consciously.

This pilot will start in the spring of 2020. If you live in Zeeland or are visiting Zeeland in 2020, you can participate in this pilot! We wish to approach you with a number of questions during the development phase of the pilot and/or wish to, when the pilot starts, send you information about how you can participate.

Please indicate below how you would like to participate in this pilot.

*

Please choose **only one** of the following:

- ☐ I prefer not to participate in this pilot, and I no longer wish to be contacted.
- ☐ I prefer not to participate in this pilot, but you can contact me for a follow-up survey of my travel behaviour.
- ☐ I like to participate in this pilot as a participant, but do not want to be involved in the development process.
- ☐ I like to participate in this pilot as a participant, and would like to be involved in the development process.

59 Thank you for your participation! Please enter your e-mail address or telephone number below.
